## Chaya Yoddha Sanchalanam - moving the shadow

This flowing and spiraling form refines the breath, frees the structure of obstruction and enhances the life force. **Classes are taught by Catherine Halcomb-LaBarbera.**

Shadow yoga is taught in a series class style where students learn one of the four prelude forms of Shadow Yoga. Students are introduced to each stance, warrior form and sun form until the sequence comes alive. This systematic way of learning leaves the student with the understanding and skills necessary to move toward a more powerful, effective and enjoyable yoga practice.
